Week 8 Focus: Ongoing Learning - Skills Awareness

by Jennifer Britton, Potentials Realized – RemotePathways.com

Focus Question: *What are the skills you want to grow into?*

Description

There are many skills which can help you stand out as a remote professional – here are the ones I shared in Effective Virtual Conversations for remote leaders. In fact, for most remote professionals we can benefit from skills in these areas.

What do you need to focus on in as it relates to skills in each area? What can help you grow? What areas have you had not exposure to?

As a remote worker it may be even more important to revisit these skills on a regular basis. Ask for feedback from others.

Looking back to last week's post on the ecosystem of learning where we explored the different ways you can learn in the remote space, what can you do to expand your skills in these different areas?

Activity

Take look at your skills in each of these areas. Rate yourself on a 1-10 with 1 being low and 10 being high. Note what your focus is going forward, including how you want to grow or develop your skills in each area.

| | My Rating | Focus |
|-------------------------------------|-----------|-------|
| Building Relationships | | |
| Building Trust | | |
| Creating Connection Across the Team | | |
| Providing Clarity | | |
| Intentionality | | |
| Working Across Differences | | |
| Intercultural Know-How | | |
| Innovation | | |
| Resilience/Agility | | |

Note your ratings and consider what you want to do to grow in these areas you have highlighted. My top 3 areas of focus are:

- 1.
- 2.
- 3.

"We are what we repeatedly do. Excellence, then, is not an act but a habit."

Aristotle

Remote Skills

| | | |
|------------------------|----------------|--------------------------------------|
| Building relationships | Building trust | Creating connection amongst the team |
| Providing clarity | Intentionality | Working across differences |
| Intercultural know-how | Innovation | Resilience/Agility |
